## ASSAILING GLADSTONE.

## THE GREAT PREMIER VILLY SAN- DERED BY THE TORY PRESS.

The safety of the French Republic threatened on Account of the Expulsion of the Prince—The Hiss of the Parliament—A Riotous Foreign News.

LONDON, July 7.—The Tories are making unscrupulous use of the correspondence which passed between Mr. Gladstone and Mr. Balfour, and are waiting for the publication of Mr. Gladstone's version of the famous conversation which he held with Mr. Balfour at Eaton hall, the seat of the Duke of Westminster, whither Mr. Gladstone drove from Ilkley to meet Mr. Balfour. Already the Tory agents are covering the walls with placards containing garbled extracts from the letters and conversation, and to-day's Globe bears an article purporting to give an authentic version of what passed between the premier and the archbishop of the Marquis of Salisbury, headed "The Plot Unmasked." The account published under this head is, however, even more distorted than the placards. The Evening News heads its article and bulletin board "Gladstone's last words to the dynamite and dagger conspirators."

## Election Results.

LONDON, July 7.—Mr. Hugh Childers, the home secretary, and Liberal candidate for the Southern division of Edinburgh, has been elected by a vote of 1,775, against 1,011 for Mr. Purvis, his opponent.

Mr. John Morley, chief secretary for Ireland, the Liberal candidate for Newcastle-on-Tyne, and Mr. James Craig, Liberal candidate, have been elected over Sir William G. Armstrong, the Liberal-Unionist candidate, and Mr. Arthur W. R. Balfour, the Conservative candidate. The vote stood as follows: Mr. Morley 10,681; Mr. Craig 10,172; Mr. Armstrong 9,667; Mr. Balfour 9,980.

The Liberal seat in Edinburgh, electing their candidate for the Central division of that place over J. Wilson (Liberal-Unionist). Mr. Wilson was returned for the seat in the previous election, and was one of the dissidents.

Mr. Charles Edward Lewis, Conservative candidate for the seat in the previous election, over Mr. Justin McCarthy, the Liberal candidate. The vote stood, Lewis 1,829; McCarthy 1,734. Mr. Lewis defeated McCarthy for the same seat in the previous election, the vote standing, Lewis 1,824; McCarthy 1,730.

In the Eastern division of Edinburgh, Mr. Wallace, Liberal, has been elected, defeating the Right Hon. George J. Goschen, the Liberal Unionist, and one of the most active dissidents. The vote stood, Wallace 5,595; Goschen 2,340.

Mr. Goschen was elected from the same district as a Liberal in the previous election, receiving 4,587 votes.

In the Central division of Edinburgh, Mr. J. Wilson, Liberal-Unionist, is elected by a majority of 1,775 over Mr. Purvis, Liberal-Unionist, and Mr. Balfour, Conservative. In Greenock Mr. I. Sturgeson, Liberal-Unionist, is elected by a majority of 1,775 over Mr. Balfour, Conservative. All the seats held by the Liberal party in the last parliament are Liberal.

## Riot at Dublin.

DUBLIN, July 7.—In order to save the Conservative workingmen's club from destruction last night, the police were obliged to surround the building. They then arrested twenty of the inmates who had engaged in throwing bottles at, and firing upon the Catholic procession. Investigation this morning shows that as a result of the fight three Catholics are dying and twenty others are in hospitals suffering from wounds inflicted by clubs and bullets. The irritation against the Orangemen for this is pronounced an unprovoked assault is intense, and threats of vengeance are being uttered by the Catholics.

In an interview with a cable news reporter Mr. Joseph Hyland, who has wounded in the hospital, said that he was walking quickly when the others threw their stones, and suddenly without the slightest provocation bottles were thrown from the club house windows, causing him to take to the ground and cowering. When the police arrived, and after they had formed a cordon, the shower of bottles continued, and the sound of breaking glass and the firing of a revolver were heard. The people in the streets were breaking the windows of the club house. Mr. Hyland says that he was struck by a bottle in the head, and that he was pierced by the glass. He was at the police were in the act of storming the building, and remembers nothing further. He was afterward carried to the hospital.

## Trouble in France.

LONDON, July 7.—Private letters from Paris attest the extreme bitterness of the friends of M. Clemenceau against M. De Freycinet. A leading Republican writes your correspondent that the project of expelling the prince was mooted, not from any fear of the prince, but from the desire to break down the government of M. De Freycinet, nobody believing the premier capable of adopting it. Much to the surprise of the promoters of the scheme, however, it was promptly and vigorously carried out, and a great deal of anxiety is now felt in consequence of the open war on the Royalists, resulting in a strong reaction in favor of the prince of the house of Orleans.

The cause of anxiety is the chief basis upon which Gen. Boulanger, the minister of war, is believed to be operating, and his colleagues in the ministry are beginning to declare in the most emphatic manner that they declare a dictatorship with himself at its head, upon the pretext that the monarchical manifestations of the prince threaten the safety of the republic.

## Heat and Drought.

ANOVER, N. H., July 7.—The heat is exceptional, and the sun is shining, the glass ranging from 90 to 96 in the shade. In some sections streams are drying up, and crops are suffering from drought.

## Fell From a Tree.

YORK, Pa., July 7.—Joe McDevitt, a seven-year-old son of James McDevitt, bridgekeeper at Wrightsville, fell from a cherry tree near that place, and crashed in his skull.

## A POET DYING.

Paul H. Hayes, the Poet of the South, Lying at Death's Door.

MACON, Ga., July 7.—The news reached this city yesterday evening from Cape Hill, Columbia county, that Paul H. Hayes, the south's poet, lay at death's door with little or no chance of recovery. A few weeks ago while engaged upon his labors with his characteristic energy and enthusiasm he was suddenly prostrated by a fainting spell, rapidly somewhat, he to quiet the apprehensions of his family, and of his friends, but it soon developed that he was partially paralyzed and physicians were summoned. They decided that his troubles arose from a clot of blood upon the brain, and that no hopes of his recovery existed. He has yet moments of consciousness though, which the grand faith and soul of the man still shine brightly.

## SHERIFF SHOT.

Another Bloody Chapter in the Rowan County History.

LOUISVILLE, Ky., July 7.—Another bloody chapter in the Rowan county faction fight has been added. Sheriff Henry, with posse, attempted to arrest the notorious Craig Toller, Cook Humphreys and Howard Logan, informants in the troupe that Toller admitted guilty, but Logan and his son William and Humphreys opened fire upon the posse, who returned the fire.

The constable's transepts (the purchase of a lot of property) had nothing to do with the general scope of the bill, and was therefore irrelevant.

## WASHINGTON WIRELETS.

## KNIGHTS OF LABOR PRAYING FOR A PASSAGE OF A BILL.

Proceedings of the Senate and House of Representatives—The House Considering the Deficiency Appropriation Bill—The Randall Tariff Bill—National Notes.

WASHINGTON, July 7.—A large number of Knights of Labor petitioners, praying for the passage of railroad land forfeiture bills, were presented and appropriately referred.

Mr. Cockrell reported from the committee on military affairs, the bill to regulate the pay of army and navy officers who neglect to provide for their families.

The senate took up the bill to secure the Cherokee freedmen and others, their share of certain proceeds of land.

Mr. Ingalls, from committee on Indian affairs, reported and the senate passed a substitute for this bill. (It appropriates \$25,000 for the purpose and directs how it shall be distributed.)

Consideration of the amendments to the river and harbor bill was then resumed.

Mr. Ingalls made the point of order against the appropriation of the purchase of the sturgeon bay and Lake Michigan ship canal and harbor of refuge, claiming that this was not a bill to buy, construct, and that the item referred to was general legislation.

The chair overruled the point of order, holding that as the amendment was reported by a standing committee, it was in pursuance of an act of the senate, and that the item referred to was general legislation.

Mr. Edmunds made a new point of order that the constable's transepts (the purchase of a lot of property) had nothing to do with the general scope of the bill, and was therefore irrelevant.

## FIRING AT OUR FLAG.

## Chicago Socialists Make a Target of the Stars and Stripes.

CHICAGO, July 7.—A company of Norwegians from the North Side was marching up Milwaukee avenue yesterday, on their way to a picnic. The march was led by a large American flag and were passing the corner of Erie street, when several persons in the large crowd, and the thorough-frightened Turner's march on at a double quick, still holding aloft the stars and stripes. The police were notified.

Trying to Drawa Girl.

FOLTON, Mo., July 7.—Peter Peterson, a Dane, committed suicide by capitalizing a boat in which he and Miss Belle Bushy were drawing a sail. His evident purpose was to drown the girl and himself, for both sides were thrown into the water he tried to reach her, saying: "Take hold of me, I'll take you with me."

Finding that the girl would not consent to his plan, he turned back, and was never seen again. He had, previous to meeting Miss Bushy, tried to induce three other girls to go out with him, but they were all turned down. He was about thirty-five years old and was well educated.

None are so blind as those who do not want to see.

Crackers may croak, but that's about all they ever do.

Who ever knew an habitual croaker to favor a public enterprise?

Whom will you listen to, croakers or public spirited citizens? The latter every time.

These croakers would have you believe that everything is going to the "demonstration bow-wow."

These croaker and obstructionist has had his day, and will now go to the rear. But we forget. That's where he is generally found.

What would become of the town if croakers ruled and there were no public spirited citizens in it to push things and keep up with the times?

Malignant, obstructionists and croakers want to keep out of the way, if they don't desire to be crushed by the wheels of progress and public enterprise.

If the city should fail to come to the relief of the guarantors at this critical moment, public enterprises hereafter will likely receive but little encouragement.

Lest those who favor public enterprises come to the front now, and let croakers and malignants be "relegated to the shades of private life," to use a popular expression.

SHALL the guarantors put up their cash to pay for the rights of way, or shall the city lend them her credit to procure the money? This is the question the voters will have to answer next Saturday.

No one wants to see the guarantors go down in their own pockets for the cash to pay for rights of way. But if the railroad proposition shouldn't carry, that's just about what they will be compelled to do.

THE city is going to take \$130,000 to finish securing the rights of way for the railroad between Ashland and the Campbell County line, is "too thin." We do not believe it will take any such a sum. What is needed now is cash.

THE city that the railroad proposition is a "scheme" to swindle the city is absurd. The guarantors and their indemnifiers own fully one-half the taxable property of Mayville, and, of course, pay one-half the taxes. The guarantors are among our best business men, and can be relied on.

If the people knew how much money the rights of way are going to cost, they would know just how to act on this railroad proposition. The ordinance published elsewhere admits; there may be a deficiency of from \$10,000 to \$20,000. We are willing to trust the matter to the Citizens Committee. They are among the biggest tax-payers in town, and will do nothing to injure their own interests.

We commend the following, taken from the Lexington Transcript, to the croakers and others who are opposed to every public enterprise that comes up:

"A tramp over Lexington will show such a vast number of new buildings going up and other improvements being made as to perfectly astonish an old citizen. President Kaufman says he doesn't see what all is coming to, and it does look to a casual observer as if Lexington were growing, but the fact is that one thousand new buildings put up last year are all new, while hundreds of families are compelled to double up in houses in order to obtain shelter. Lexington is booming right along and she will continue to boom so long as we continue to be public spirited."

The boom referred to set in a few years ago, when two new railroads were built through that city.

#### All Right.

A little timely explanation seems to have settled all serious opposition to the proposed subscription. It is now pretty generally understood in the community that a man who persists in saying, after such explanation, that the city is called upon to vote sixty thousand dollars in addition to the fifty thousand subscribed by the county willfully misunderstands the proposition. He does not want to understand the question. This point established, the opposition ceases, and the occupation of those who would indefinitely postpone the completion of the road is definitively gone. The danger of postponement in this matter lies in the possibility of panics, strikes etc., which may not only delay and embarrass the operations of the company, but even defeat the construction of the road; and to meet this difficulty effectually it is only necessary for the city to arrange promptly for securing the indispensable rights of way. The conditions tacked on to the county subscription by Mr. Byar and his friends render it practically valueless, unless the city steps forward and advances the completion of the road to secure the rights of way and assure the early completion of the road.

## WISCONSIN WORKINGMEN.

A CONVENTION CALLED TO NOMINATE A STATE TICKET.

Differences of Opinion Whether the Knights of Labor should put a Third Ticket in the Field or Not—Suggestions of a County Labor Committee.

MILWAUKEE, Wis., July 7.—Surface movements appear to indicate the convention of workingmen called to meet in La Crosse next week for political organization, will adjourn without nominating a state ticket. If any such action is taken it will be in opposition to a strong minority, numbering many of the most active and prominent Knights of Labor. In view of all that now appears, it would not be surprising if the meeting broke up in a row. The first and main object of the Knights of this state is to compass the defeat of Governor Rusk, who is certain to head the Republican state ticket.

The leaders in the proposed plunge of the Knights into public, claim that in one they put up a third ticket they will defeat their main object. There was a plan on foot to unite with the Democrats on a combination ticket, but this plan was opposed by leading Democrats, who threaten to bolt to Rusk if any such combination is formed. Besides, it is discovered that the labor leaders can not command the allegiance of their followers in such a deal, who openly threaten to bolt in turn.

The county labor committee, of this city, in its report just made, advise that the La Crosse convention should simply formulate a platform of principles, elect a state control committee to direct future political action of a general nature, adopt a resolution denouncing Rusk, another favoring the nomination of congressional, legislative, and county ticket in every district throughout the state, where there is the slightest hope of electing their candidates, and then adjourn. The contrary the knights in the western and northern parts of the state are in favor of a full state ticket. The result of the convention is awaited with much anxiety on all sides.

#### Shot His Sweetheart.

LEONARD, Pa., July 7.—Great excitement prevailed on Chestnut street when it was learned that Emma, the pretty fourteen-year-old daughter of Israel Witman had been shot mortally by her lover, John Leonard. The parties are favorably known in society here and were looked upon as betrothed lovers. Mr. Witman, the girl's father, states that he was lying on a lounge in the sitting room when suddenly he heard the report of a pistol. He rushed to the parlor and there found his daughter lying on the floor, apparently dying from a terrible wound in her left breast. She was strong enough to say that John had shot her. The accused was walking off unharmed and made no acknowledgment of his crime. He was arrested, however, and is now in the city jail. The girl is not expected to live.

#### Senator Harrison's Bill.

MONTREAL, July 7.—Senator Harrison has introduced into the United States senate a memorial from the Maine Christian Temperance Union of Indiana, asking an investigation into the importation of young Canadian girls for immoral purposes. Chief of Police Parry says that six years ago the importation of Canadian girls was attempted, but that the police stopped it. The girls were taken to the city and were used as a base of supply. If the police do not know, everybody connected with the Grand Trunk depot, where the girls are sent off, is aware of it. Last year two gangs, one of eleven and one of twenty-five, were despatched to Chicago. The victims were principally from the country, who had hired as domestics. This infamous trade is carried on in the most open manner.

#### Mobbing an Umpire.

JERSEY CITY, July 7.—During a game between the Newark and Jersey City base ball clubs yesterday, Umpire Charles Daniels was mobbed by an angry crowd because of an unpopular decision which he made in favor of the Newark. He was got out of the enclosure and into a street car, but the mob followed and stoned the car, wrecking all the windows. Finally the car ran off the track. It was once surrounded by the crowd and Daniels was dragged out, but members of both clubs who had gone along to protect him, succeeded once more in rescuing him from the mob, and he was hurried into the Ferry house and aboard a train for Newark. His only painful wound was a bruise caused by a large stone which struck his leg.

#### The American Teachers' Institute.

BAN HARBOR, Me., July 7.—Six hundred teachers have arrived to attend the fifth annual meeting of the American Institute of instruction beginning here to-day. It is probable that 3,000 teachers will be here by this evening. The Hon. Henry Barnard, of Hartford, will deliver the opening address on Thursday night. The meetings of the Maine Pedagogical society, which will be held in conjunction with the American Institute, will begin Wednesday and continue each day till Friday, and will consist principally of reports of the several committees appointed to consider the best method of teaching certain studies. In the afternoon of each day will be devoted to pleasure excursions.

#### Hon. Frank Hurd Talks.

TOLEDO, July 7.—Hon. Frank Hurd, who is here and delivered a 4th of July oration, says he will leave for Washington to-morrow on legal business. He was asked if he would run for congress if the nomination was tendered him, he said: "I might not accept the nomination if it was tendered me unannounced, and I may not if it is tendered. If I do, it will be the hardest fight of my life. I have no time, as yet, to talk with my friends on the subject."

#### A Small Red Hot Cyclone.

PERRIS, Cal., July 7.—A red hot wind swept over Perris Sunday night, and continued until 1 o'clock yesterday morning. At 10 o'clock the temperature registered 108, and the hot wind was almost unbearable. A small cyclone also passed over the city, destroying several houses. Nothing like it has been seen before in this section.

#### Killed His Infant Child.

BUFFALO, N. Y., July 7.—Nicholas Baumann, a German, lifted his infant child from its cradle by the legs and dashed its head against the wall. The child was instantly killed. He recently came here from Pennsylvania. He is reported as having been on a spree, but his wife denies that he was drunk.

## SUPERSTITIOUS ORGAN-GRINDERS.

Queer Fests About Their Luck, Odd Fancies and Chalk-Marks.

"Organ-grinders," said a large dealer in musical instruments the other day, "are among the most superstitious people in the world. Of course when I say organ-grinders I refer to those of Italian birth."

"What are some of their superstitions?" asked the customer.

"One that is almost universally held is with regard to the money they receive. If, on counting of their day's earnings they find they amount to an odd number of pennies, whether one or even if it amounts, they will give away the odd penny or throw it away. Most of them prefer to throw it away, and that is the result of the disposing of it is to drop it into water, if there is any deep water handy. I expect Jones' last muddy current conceals many a copper cent from the organ-grinder, and tossed away as a harbinger of good luck. I have often early in the morning seen an organ-grinder make a chalk-mark on his organ to keep away the old penny. You notice the next organ you come across and see if it hasn't got a chalk mark on it. Whenever the result of the day's work proves that the chalk-mark was a lucky sign the organ-grinder does not rub it off, but on the contrary he puts another one just below it. And if this, too, turns out auspiciously, he puts another below that, on the third day, and so on until his luck changes. I've seen an organ with as many as a dozen chalk marks on it, but this was an extraordinary streak of luck. It isn't often the Italian gets more than three or four on the organ before the luck changes. When this happens he rubs out a mark, and generally he rubs the marks out as fast as he gets them on."

"I've always taken a great interest in these fellows, and I've learned a good deal about their habits and customs. Four years ago a 'grinder,' as we call them, came here with his organ. The Briton was literally covered with chalk marks, and I've never over seventy-five of them in all. I questioned the fellow, and he told me that he had journeyed from Albany, N. Y., to Baltimore without striking a single day when his earnings showed up the odd penny. I've always suspected that that fellow had a good manner, and kept his run of business through the day and knocked off when the number was an even one."

There is another very serious superstition prevalent among the 'grinders.' If they make exactly the same amount of money on two successive days they look on the result as a bad omen, and they stop work. Usually they get as full as a goat on the strength of it."

"Another superstition that has a firm hold on the majority of them is the belief that when the monkey dies the organ dies too. The monkeys are long-lived animals, and I have known one be handled dead from father to son, so that the death of one from natural causes is a quite unusual occurrence, relatively speaking. Indeed, I have known one be handled dead and danced in the streets of Sodom before the food."—Baltimore Herald.

#### Chicago Strikers.

CHICAGO, July 7.—There has been no settlement of the Lake Shore switchmen's strike at least the railroad officials know of none. No overtures have been made by the switchmen. Two days of inaction, so far as the strike is concerned, have passed since this morning, when business was resumed under the conditions that have prevailed since the strike began. The strikers, however, are not so easily satisfied. They are still in the field, and so were the Iowa Lake police and a contingent from the sheriff's office, the elastic authority of the latter being about the only redeeming virtue, no active aid being expected from them in the event of hostilities resuming. But the strikers—where were they? Now were they supposed to disturb the nerves of the most timid riflemen, and the valiant reporters sniffed the air in vain for the absent switchmen and their sympathizers. The absence of the strikers from their usual haunts caused some degree of comment, and it was stated that a large number of them had left the city to seek work elsewhere.

#### Portland's Centennial.

PORTLAND, Me., July 7.—The sailing regatta was the opening feature of the third day of Portland's centennial celebration. At 10 o'clock the literary exercises were begun in city hall. Hon. Thomas B. Reed delivered the historical address, a poem by Mrs. Abba Lowell was read, and music was furnished by Hayden association. This evening there will be a clam bake at Long Island, and in the evening there will be a reception at which the mayor and ex-mayors of Portland will act as the reception committee. A reunion of high school graduates who have been the whole to conclude with a promenade concert.

#### Drowned While Basking.

MONTPELIER, Vt., July 6.—While basking in the sun, a young boy, 10 years old son of Mayville Clerk of Middlesex, slipped on a slippery rock and slid into the water where it was twenty feet deep. Being unable to swim he was drowned. He was found in time to rescue him and nearly met the same fate. He was going down for the last time when Jerome Gould, who had been summoned by the young son, pushed a board to him and he was dragged out.

#### Stay of Proceedings.

SYRACUSE, N. Y., July 7.—Justice Vann has granted a permanent stay of proceedings in the case of the people vs. Paul J. E. O. Sullivan, who is now confined in the penitentiary pending the execution of his sentence for alleged rape.

#### Frostrated and Died from Heat.

YORK, Pa., July 7.—John Keeney, a resident of the Frenchville, who was working in a harvest field, near town, was prostrated by heat about 10 o'clock this morning, and died a few minutes afterwards. This was his first year's work in the field. He was forty-six years of age and leaves a wife and six children.

#### Blown Up by Dynamite.

LOWELL, Mass., July 7.—The two-story wooden dwelling of Mrs. L. Dodge was blown up and utterly destroyed last evening, by dynamite, placed by some unknown hand in boxes of fruit and vegetables, and sent from the ruins uninjured. Suspicion points to several persons and arrests will probably follow.

#### Fourth of July Accidents.

PEABODY, Mass., July 7.—The celebration here ended in a sad manner. About 10 o'clock an old woman, upon which ten to twenty persons had congregated to witness the water gun, was blown up by the fire company's party, blowing them on the spectators before. Some twenty men, women and children were injured, and it is feared some fatally.

### Cure for Piles.

Piles are frequently preceded by a sense of weight in the back, loins and lower part of the abdomen, causing the patient to suppose he has some affection of the kidneys or neighboring organs. At times, symptoms of indigestion are present, as flatulency, uneasiness of the stomach, etc. A moisture, like perspiration, producing a very disagreeable itching after getting warm, is a common attendant. Blind, bleeding and itching piles yield at once to the application of Dr. Rossmore's Pile Remedy, which acts directly upon the parts affected, relieving the tumor, allaying the intense itching, and effecting a permanent cure. Price 50 cents. Address the Dr. Rossmore Medicine Co., Piqua, O. Sold by drs. T. Wood.
